## Summary

AWS Serverless with 1 years of experience in Software Industry. Played important role in development of **Backend** and deployment of **Mobile Apps / Web Applications** using **JavaScript, NodeJS and AWS SDK**. Experienced with Dashboarding, Client handling & Business requirement gathering.

Skilled in JavaScript, NodeJS, Flutter, AWS Lambda, AWS S3, AWS API Gateway, AWS AppSync, AWS Cognito, AWS *DynamoDB, AWS SES, AWS SNS, AWS CloudWatch, AWS Step Function.*

Basic Skills on *HTML, CSS, Python, Data Science.*

## Professional Experience

**Software Developer –** August 2021 to Present,
[**Mobil80 Solutions and Services Private limited**] – Bangalore, Karnataka

- Understanding the requirements and analysis of the technical stack to be used to build project.
- Experience with Cloud based hosting solutions using S3.
- Developing RESTful API's using API Gateway and GraphQL API's using AppSync by coding the Logic's/ Functions on AWS Lambda connected with NoSQL database DynamoDB.
- Integrating other technologies like: -
  - **-Step Functions** for creating State Machine, and managing complex workflows, which is able to store various state values and update them based on inputs.
  - -**WebSocket APIs** for real-time data transfer.
  - -**SES** for sending E-mail's.                    -**SNS** for sending notifications to the subscribers.

## Projects

**SKILTER –** NodeJS, AWS (Backend)
- SKILTER Mobile Application is a multi-player quizzing app and platform where 100's and 1000's of users can participate in regular schedules quizzes at various times during a day**.**
- Web Application where Administrator configures/manages and schedules SKILTERS.

**ElevenRush –** NodeJS, AWS (Backend)
- US Based CRM Web Application which enhances the internal workflow and supports sales processes.

**Loqayt –** NodeJS, AWS (Backend)
- Web Application which allows to create our own permanent Loqayt ID for our specific location on map.
- Mobile Application which can be used to navigate to an existing Loqayt ID or you can create your own Loqayt ID by verifying your email address.

**Personal Portfolio –** HTML, CSS, JavaScript
- It's my portfolio website which is being hosted live on github.io(vineethv12.github.io).

## Education Details

**B.E**, Mechatronics Engineering, TOCE (2016-2020) — Bangalore, Karnataka, India          6.5cgpa
**Diploma**, Mechatronics, JSS Polytechnic (2013-2016) — Mysuru, Karnataka, India          67.66%
**S.S.L.C**, St. Thomas High School (2013) — Mysuru, Karnataka, India          68.96%

## Certificates

**AWS Innovate Modern Apps Edition –** Associated with AWS
**AWS Innovate AL/ML Edition –** Associated with AWS

**Data Science with python –** Associated with Besant Technologies

**Robot Programming and Simulation –** Associated with KUKA Robotics
